

## ***Flash Notes SPP<sup>1</sup>***

### **Plano Juncker**

(síntese da [COM\(2014\) 903 final](#) – An Investment Plan for Europe)

---

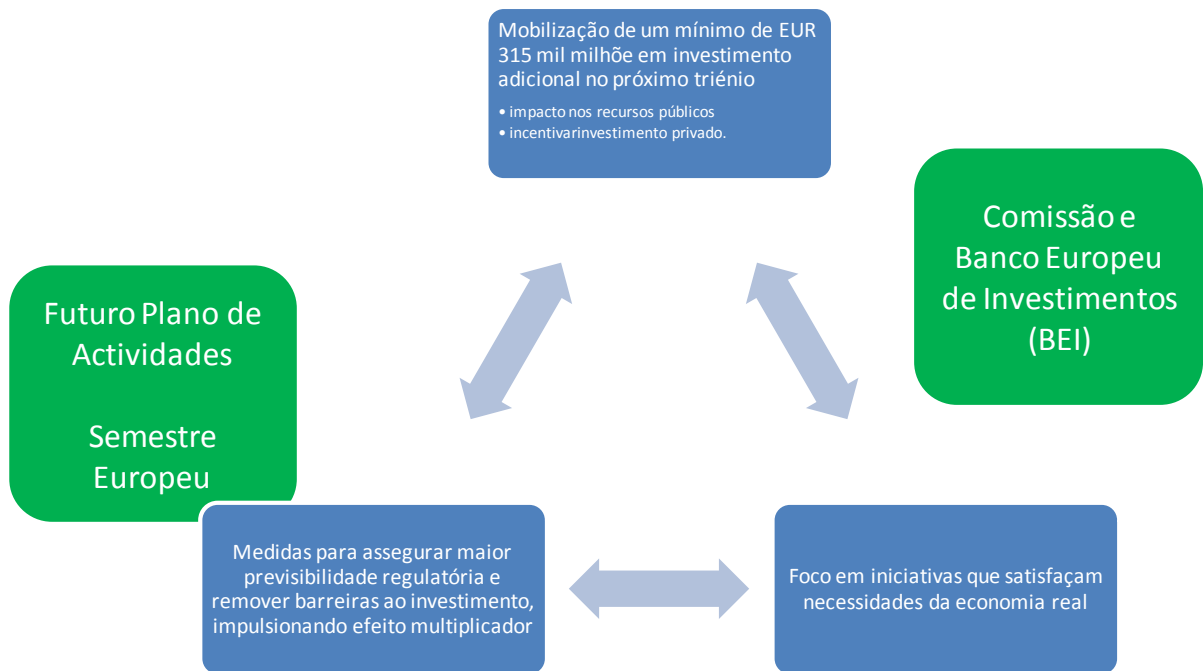

<sup>1</sup> As *Flash Notes* são apontamentos que sintetizam informação relevante no âmbito das competências do Serviço de Prospetiva e Planeamento (SPP)

## 1. Objectivos Estratégicos

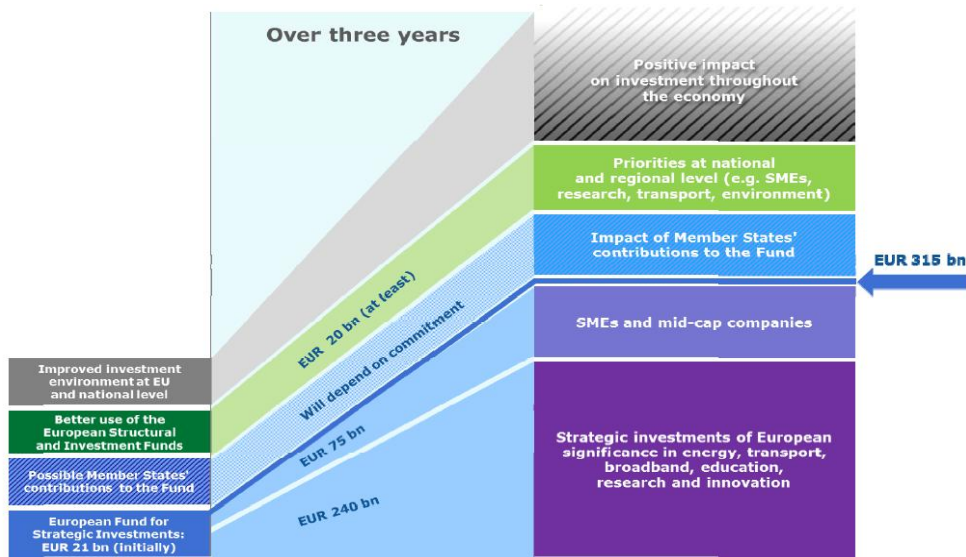

- Inverter as tendências de investimento baixo e ajudar a impulsionar a criação de emprego e recuperação económica, sem penalizar as finanças públicas nacionais ou contribuir para a criação de novas dívidas;
- Dar um passo decisivo na satisfação das necessidades de longo prazo da economia e aumentar a competitividade;
- Reforçar a dimensão europeia do capital humano, capacidade produtiva, conhecimento e infra-estruturas física, com um **foco especial sobre as interconexões vitais para o mercado único**

## 2. Eixos do Plano

### 3. Impactos esperados

### 4. Financiamento (novo ESFI)

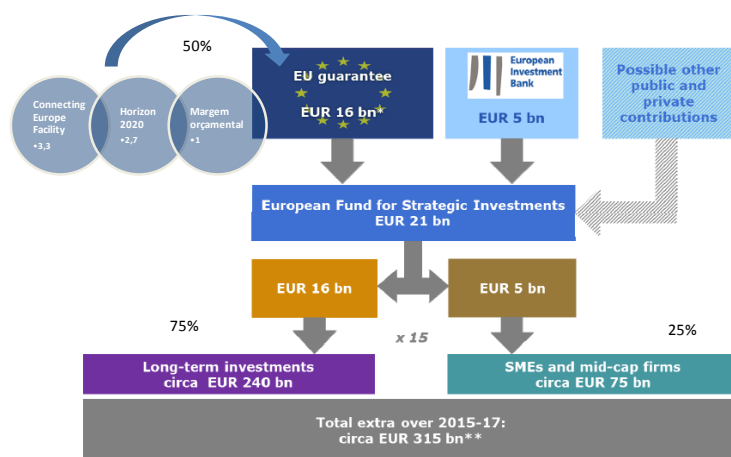

A proposta pode ser financiada no âmbito do actual Quadro Financeiro Plurianual para o Orçamento da UE para 2014-2020

A nível da UE, isso será feito através da criação de um novo Fundo Europeu de Investimentos Estratégicos (European Fund for Strategic Investments):

uma garantia, de 16 mil milhões de euros, no âmbito do orçamento da UE para apoiar o Fundo. O BEI assegura 5 mil milhões de euros;

Os investidores privados também pode participar

A nível nacional, foco numa utilização mais estratégica dos Fundos Estruturais e de Investimento.

\* 50% guarantee = EUR 8 bn from Connecting Europe Facility (3.3), Horizon 2020 (2.7) and budget margin (2)  
\*\* Net of the initial EU contributions used as guarantee: EUR 307 bn

## 5. Projectos prioritários

- Infraestruturas
  - Redes de banda larga e energia
  - Transporte (particularmente em centros industriais);
- Educação, investigação e inovação;
- **Energias renováveis e eficiência energética**

## 6. Calendário

### December 2014 / January 2015

- 18/12
- The European Council and the Parliament should endorse the Investment Plan for Europe, including the decision to set up a European Fund for Strategic Investments and agree to fast-track the adoption of the relevant regulation.
- The Commission proposes the regulation in January 2015.
- The Parliament and Council discuss the regulation with a view to ensure its entry into force by June 2015.
- The European Investment Bank Group starts activities using its own resources.
- Member States should finalise the programming of European Structural and Investment Funds to maximise impact.
- Project identification is accelerated at EU level, based on the report of the Commission-EIB Task Force.
- First steps are taken by the EIB and key stakeholders to build an investment advisory "Hub".

### By mid-2015

- The new European Fund for Strategic Investments is operational.
- The European Structural and Investment Funds produce their impact, in synergy with EU programmes.
- A transparent pipeline of projects is in place at EU level, which will be developed over time.
- The new investment advisory "Hub" is operational.
- Follow-up activities have started at EU, national and regional levels, together with relevant stakeholders.
- A dedicated website allows to monitor progress on the Investment Plan in real-time.

### By mid-2016

- Progress will be reviewed, including at the level of Heads of State and Government.
- Further options may be considered ahead of the mid-term review of the Multi-annual Financial Framework.
